(54) Title: METHOD OF AND SYSTEM FOR ESTABLISHING A COMMUNICATION ADDRESS OF A DEVICE

(57) Abstract: The invention relates to a method of establishing a communication address of a device, the method comprising obtaining a main address; using the main address as communication address of the device; obtaining a backup address; and using the backup address as communication address of the device if a collision occurs with the main address. The device is for example an internet-enabled television set 402, a personal digital assistant 404, or a personal computer 406.
